SOMETHING FOR YOUR HEART

Do you want your life to be complicated, confusing, stressful and messy? It's easy to accomplish: Just give some of your life to the Lord. Just acknowledge Him in some of your ways. Then, save the rest of your ways for yourself.

It's like signing up for a multiple personality disorder. Why? Because God's way is not your way. If you make a commitment to trust Him in some things and not others, you'll always be trying to keep parts of yourself a secret from the other parts of yourself.

Many of us do it every day. James called it being "double minded and unstable.". It will lead to foolish living and giant headaches.

Want to live simple? Want to walk a straight-ahead path that's going somewhere? Trust God with 100 percent of your heart and acknowledge Him in all of your ways.

"... in all your ways acknowledge him, and he will make your paths straight"
(Proverbs 3:6)
